

# SQL Views

[< Previous](#)[Next >](#)

## SQL CREATE VIEW Statement

In SQL, a view is a virtual table based on the result-set of an SQL statement.

A view contains rows and columns, just like a real table. The fields in a view are fields from one or more real tables in the database.

You can add SQL functions, WHERE, and JOIN statements to a view and present the data as if the data were coming from one single table.

## CREATE VIEW Syntax

```
CREATE VIEW view_name AS
SELECT column1, column2, ...
FROM table_name
WHERE condition;
```

**Note:** A view always shows up-to-date data! The database engine recreates the data, using the view's SQL statement, every time a user queries a view.

The following SQL creates a view that shows all customers from Brazil:

## Example

```
CREATE VIEW [Brazil Customers] AS
SELECT CustomerName, ContactName
FROM Customers
WHERE Country = 'Brazil';
```

[Try it Yourself »](#)

We can query the view above as follows:

## Example

```
SELECT * FROM [Brazil Customers];
```

[Try it Yourself »](#)

The following SQL creates a view that selects every product in the "Products" table with a price higher than the average price:

## Example

```
CREATE VIEW [Products Above Average Price] AS
SELECT ProductName, Price
FROM Products
WHERE Price > (SELECT AVG(Price) FROM Products);
```

[Try it Yourself »](#)

## Example

```
SELECT * FROM [Products Above Average Price];
```

## SQL Updating a View

A view can be updated with the CREATE OR REPLACE VIEW command.

### SQL CREATE OR REPLACE VIEW Syntax

```
CREATE OR REPLACE VIEW view_name AS  
SELECT column1, column2, ...  
FROM table_name  
WHERE condition;
```

The following SQL adds the "City" column to the "Brazil Customers" view:

## Example

```
CREATE OR REPLACE VIEW [Brazil Customers] AS  
SELECT CustomerName, ContactName, City
```

# SQL Dropping a View

A view is deleted with the DROP VIEW command.

## SQL DROP VIEW Syntax

```
DROP VIEW view_name;
```

The following SQL drops the "Brazil Customers" view:

## Example

```
DROP VIEW [Brazil Customers];
```
